

## **DEPARTMENT OF FOOD, NUTRITION AND DIETETICS**

### **Department Profile:**

The Department of Foods and Nutrition was established in 1971 by pioneers such as Madam B. Tarabai and M.S. Subhalakshmi. This department is dedicated to providing comprehensive education in the field of nutrition and food science. It offers two primary programs: a B.Sc. in Foods and Nutrition and a B.Sc. in Food Science and Quality Control.

The curriculum is meticulously updated every three years to ensure it meets global standards and addresses the evolving needs of the industry. This continuous enhancement aims to equip students with the skills and knowledge necessary to excel in various professional domains, including medicine, entrepreneurship, and food product development.

Students are provided with a robust foundation in subjects such as human nutrition, dietetics, food safety, and quality control. The program also emphasizes practical experience through internships, research projects, and hands-on training in state-of-the-art laboratories. This practical approach ensures that graduates are well-prepared to tackle real-world challenges in their careers.

The department also fosters innovation and critical thinking, encouraging students to engage in research and develop new food products that meet contemporary health and dietary needs. By collaborating with industry professionals and participating in workshops and seminars, students gain invaluable insights and stay abreast of the latest trends and advancements in the field.

Overall, the Department of Foods and Nutrition strives to produce skilled professionals who are capable of making significant contributions to public health, the food industry, and scientific research, ultimately enhancing the well-being of communities on a global scale.
