

DEPARTMENT OF TEXTILES AND CLOTHING

Department Profile:

The B.Sc. program at our institution offers a specialization in Textiles and Clothing. This department imparts comprehensive skills and knowledge in various areas, including textile design, fabric manufacturing, fabric testing, and quality control. Additionally, it covers fashion design, draping, and flat pattern techniques. The department aims to foster innovative skills and critical thinking, enabling students to engage with current fashion trends effectively. Moreover, we offer a certificate course in Fashion Designing, providing further opportunities for students to enhance their expertise in the field.

Additionally, the department offers various certificate courses to further enhance students' skills and knowledge.
