

EXPRESSION CLUB REPORT

Expression club report 2023-24

On August 24, 2023, the Family Resource Management department hosted a Resin Art Workshop for second-year students. The session, led by Dr. Nidhi Gupta, the department head, and supported by Ms. Mukti Mistry, allowed students to create a variety of resin-based items including keychains, fridge magnets, coasters, rakhi, and paperweights. Ms. Yatri Maradiya took the lead in the workshop, and students had the opportunity to market their creations within the college, garnering numerous orders. This experience was instrumental in providing students with practical insights into entrepreneurial and income-generating activities. Further showcasing their entrepreneurial skills, the department collaborated with the Millet Mela on September 14, 2023. Under the mentorship of Dr. Nidhi Gupta and with encouragement from Ms. Khushi Gajjar, the department operated a stall where second-year students actively participated. They displayed and sold their resin art products such as keychains, rakhi, coasters, paperweights, and fridge magnets. This initiative not only allowed students to present their creativity but also fostered a spirit of initiative and entrepreneurship, contributing to their development as future leaders. On December 22 and 23, 2023, S.M. Patel College of Home Science organized the 'Yuva Fiesta' Open House, a well-coordinated event led by Principal Dr. Bhavna Chauhan and supervised by Dr. Nidhi Gupta. The Family Resource Management department set up an exhibition-cum-sale stall where fourteen second-year students, guided by instructor Ms. Khushi Gajjar and assisted by Ms. Mukti Mistry and Ms. Kiran Patel, displayed a variety of artworks including paintings, murals, vintage bottles, bookmarks, and coasters. The event proved to be a valuable and enriching experience for all involved. Additionally, on February 22, 2024, the Family Resource Management Department organized a printing technique workshop at S.M. Patel College of Home Science. Dr. Nidhi Gupta led the workshop, which saw participation from 37, 11th-grade students of CVM Higher Secondary School of Home Science. Ms. Mukti Mistry instructed the students in marble printing and calligraphy, offering an enriching learning experience. On the same day, a gift-wrapping competition was held to highlight the often-overlooked skill of gift wrapping. Organized under Dr. Nidhi Gupta's guidance and with Dr. Bhavna Chauhan's motivation, 37 students competed with innovative wrapping ideas. Ms. Khyati Rana and Ms. Nayna Sharma judged the competition based on innovation, precision, visual appeal, and embellishments.

Glimpses of activities
