7. Suggestions: સુજાવો

- ✓ Parent's meeting should be organized twice a year.
- ✓ Industry visit should be organised on regular basis.
- ✓ Everything is good but please increase the break period.
- ✓ Firstly, thank you so much. Things are really good but, students should get more activities like recently they were given the opportunity to attend finishing school, which is very good and it trained our child very well.
- ✓ Regular water supply in washrooms, increasing break time, allowing research work from F.Y. so that student get good grip till the end.
- ✓ Main stream related subject is more focussed in T.Y. which I think should start to be taught from at least 3rd semester. My child had faced somewhere compromised in her studies due to this pandemic. There should be at least 1 college trip in any food industry and hospital setup.

- ✓ Why many teachers are speaking only in Gujarati language? Everyone in class is not able to understand Gujarati, but they will surely understand Hindi or English.
- ✓ Increase the practical knowledge of students as much as you can.
- ✓ Some think that, the college should provide all study materials, because during lockdown students had to suffer a lot for copying the study materials from PDF file to hard copy. Also, they had to pay high price for hard copies.
- ✓ Change in college timings.
- ✓ Hope to have regular studies soon. Overall development of each student has stopped.

8. Appreciations:

- Good teaching methods
- Teachers are caring & Cooperative
- Teachers are knowledgeable.
- College has good facilities.
