Textiles and Clothing Department

Internship Report

Academic Year 2023-24

As a part of the curriculum, final-year students of Textiles and Clothing department, underwent training at various Textile and Garment industries/boutiques/NGOs with the objective of applying what they learned in the field.

This year, we collaborated with Welspun Industry, Mafatlal Industries Limited, Baanamboos-for Men, Sahaj NGO, and Jyots Couture in the textile and clothing industries. The student learned about textile processing, CAD software design, bulk production of men's garments, and boutique's design and manufacturing system for haute couture garments.

They were given various projects and successfully fulfilled them, gaining practical experience about the industry and boutique. They also learned skills including time management, punctuality, and inventiveness. Industrialists and the owner of a design studio appreciate interns' project work and encourage them to work with them.

The training term lasts 30 days, during which, students were exposed to the workings of the aforementioned agencies as well as the organization. They provide interns with a training certificate at the end of their internship.
